Shelly Plug Setup Guide

11/19/25 v1

When it comes to setting up your Plank or Plank MINI, seconds matter. The new Shelly Wi-Fi Smart Wall Plug features a built-in clock and seconds functionality, making it a reliable option in the event of a power outage or loss of internet connectivity.

Shelly Plus and new G4 Smart Plugs

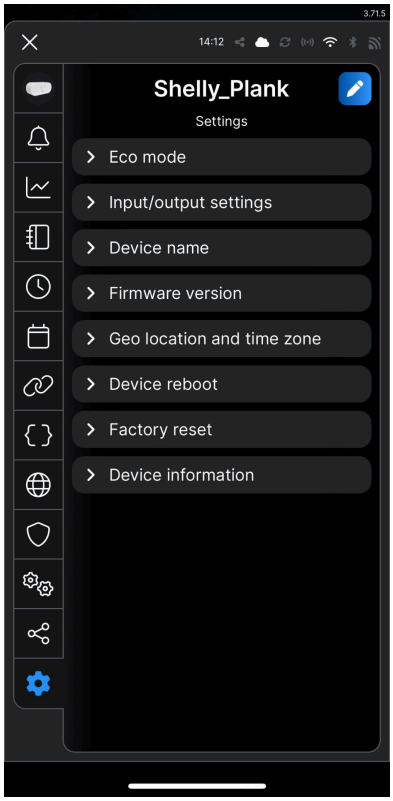

White (LINK)

Black (LINK)

Step 1. Download and install the Shelly app – LINK
Step 2. Gear: Download the latest firmware version
Step 3. Gear: Set geo location/timezone
Step 4. Rename the device (i.e, Plank/Plank MINI)

Step 5. Clock Icon. Set up Auto off

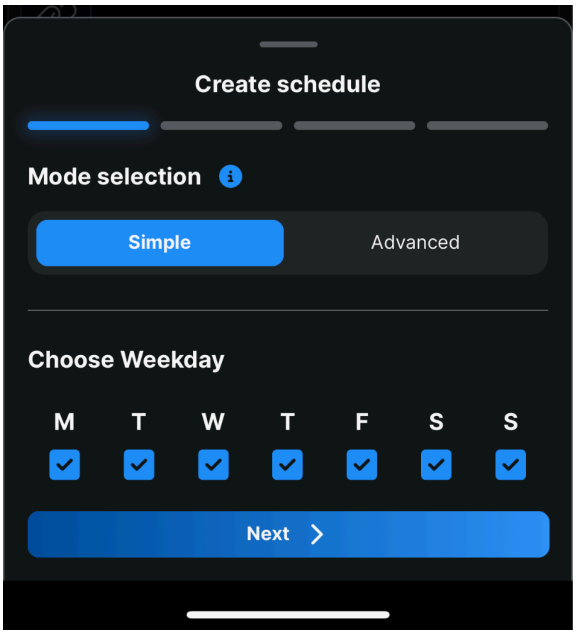

This is where you can change the seconds to meet your tank's unique needs. Every 90 seconds of Reef Jerky equals 1 cube of frozen food.

Step 6. Calendar Icon. “Add Schedule”

Using the “Simple” mode, select the days of the week you’d like to run the schedule for. Take note, it starts on Monday. When you’ve selected the days you want to run the schedule, click NEXT.

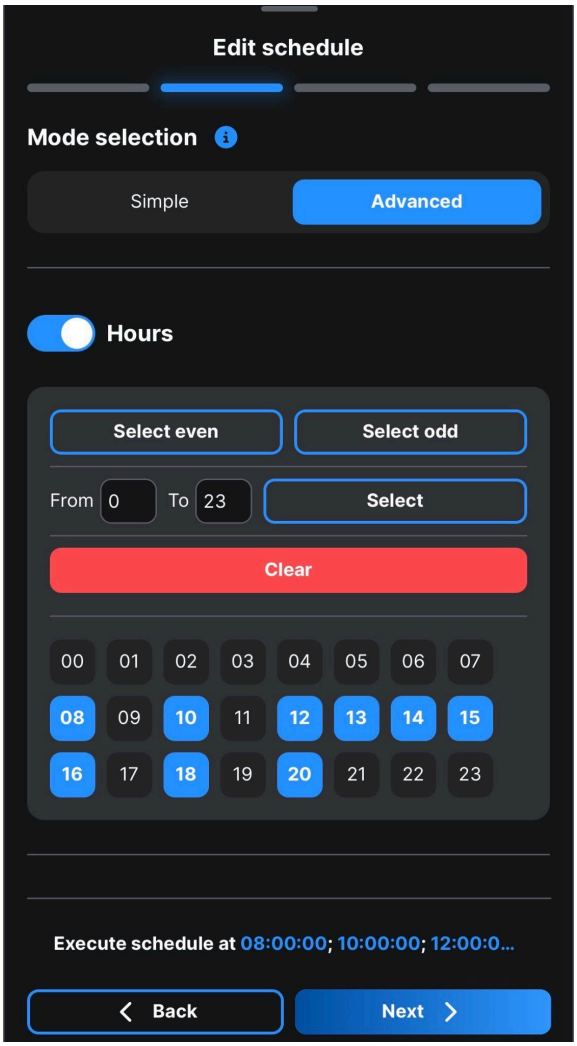

In the “Mode Selection”, switch from “Simple” to “Advanced” and click NEXT.

Step 7. Calendar Icon. Edit schedule “ADVANCED MODE”

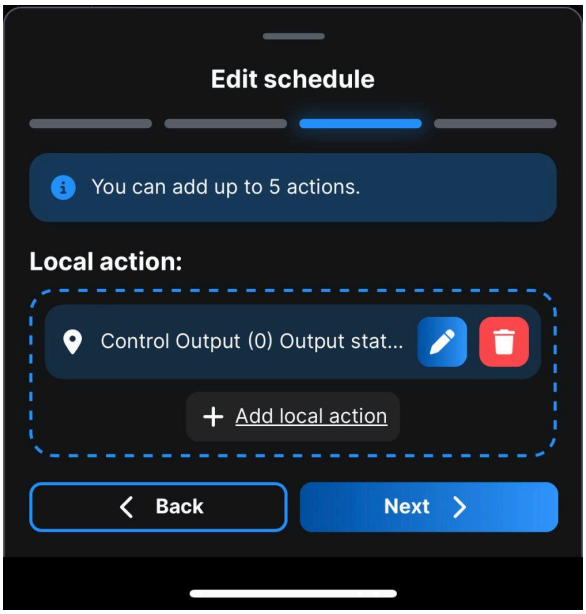

You will see “Hours”, “Minutes”, and “Seconds”. Toggle “Hours” on. Notice the blue button shown (see left).

If from “0” to “23” is not already filled out, add “0” and “23” and highlight the hours you’d like the Shelly to turn on. **NOTE:** This uses a 24-hour clock.

When you’ve selected your times, the box will turn blue. You can easily go back later to add or remove hours of the day to run your device.

When done, click NEXT.

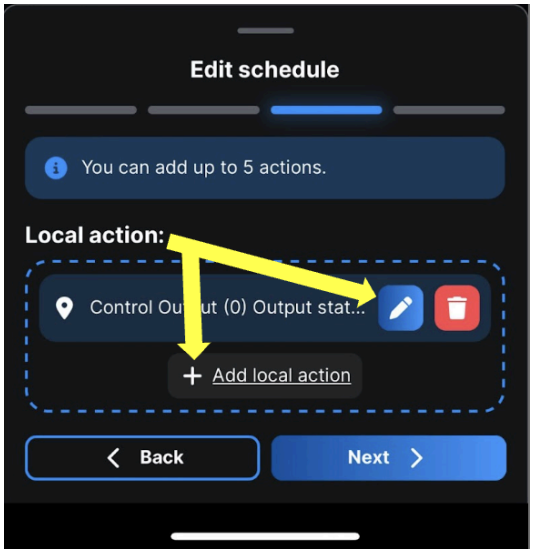

IMPORTANT
Do not click NEXT yet.
See the next step to activate the “Local Action”

Step 7. Calendar Icon. Edit schedule “Local Action”

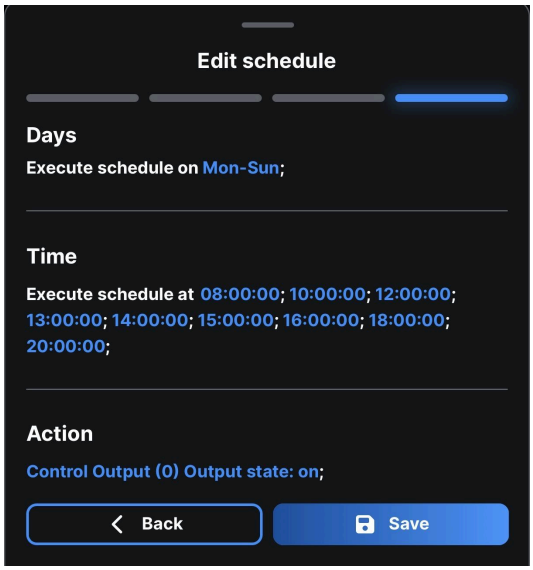

Before clicking next, either use the pen tool **OR** press the “+” to add local action. *(Refer to the yellow arrows.)*

NOTE. This is a CRITICAL step in setting up this device.

Set the Controller Output to “ON” and click SAVE.

Click SAVE.
